GENERAL RECOMMENDATIONS

- It is the recommendation of Cemetery that markers are purchased from Cemetery in order to economically support Cemetery. The income helps to keep the Cemetery in good condition for the benefit of all.

RIGHTS OF LOT OWNERS

- Interment Rights can be purchased in the Cemetery only with the written approval of the Cemetery and subject to the Rules and Regulations of the Cemetery now or hereafter adopted by the Cemetery and for the purpose of interment and memorialization only. This provision applies to all sales whether made directly by the Cemetery or sales made by owners.
- A Right of Interment, a Right of Entombment or a Right of Inurnment is an easement right for interment, entombment and or inurnment in a specified location. All Rights of Interment, Entombment and Inurnment in the Cemetery are conveyed and shall be held subject to (a) all applicable laws and governmental regulations; (b) the franchise, charter

certificate of incorporation, articles of partnership or other documents establishing the Cemetery; (c) all By-Laws and Rules and Regulations adopted by the Cemetery.

- The individual(s) named in the Cemetery Deed or Certificate of Ownership issued and of record will be presumed to be the owner(s) of the Right of Interment, Right of Entombment or Right of Inurnment unless the Cemetery receives written notice to the contrary in the form of a Warranty Deed Transfer Form, Affidavit for Interment Rights Use, a specific bequest in deceased original Lot owner's will, a divorce decree or a court order.
- A Cemetery Deed or Certificate of Ownership may be issued to an individual, or individuals as joint tenants with the rights of survivorship.
- A vested Right of Interment is one in which the individual holding it has a superior right to its use, which is not defeasible by anyone other than the owner or someone else who has a similar vested right. The spouse, children and parents of the certificate owner of record of more than one Interment Right have vested rights. The spouse of an owner has a vested Right of Interment in the space superior to any other person even if they became the spouse after the rights were acquired. No transfer or other action of the owner without the written consent of the spouse of the owner divests the spouse of a vested Right of Interment.

A vested Right of Interment may be released by waiver, terminated upon the interment elsewhere of the remains of the person in whom vested, or in the case of a spouse by divorce, unless it is otherwise provided in the divorce decree. No vested right of interment gives the right to be interred where any deceased person having a prior vested right of interment has been interred, nor does it give the right to have the remains of more than one deceased person interred in a single interment space in violation of these rules and regulations.

- When an interment of the owner or a member of his family has been made in a Lot, thereafter, unless the Cemetery is otherwise directed in writing by the owner, the plots shall be held as the family plot of the owner and no rights of interment therein may be transferred to non-family members unless such a disposition was made by the owner in a will by a specific devise, or by a written declaration filed and recorded prior to his death in the office of the Cemetery. In a family plot, the following shall have preference as to use:
 - (1) One Right of Interment may be used for the owner's interment;
 - (2) One Right of Interment may be used by the owner's surviving spouse, if any, who has a vested Right of Interment in it;
 - (3) If any Rights of Interment are remaining, the parents and children of the deceased owner, in order of death, may be interred without the consent of any other person claiming any interest in the rights;
 - (4) If no parent or child survives, the Right of Interment goes in order of death, (a) to the spouse of any child of the record-owner, and in order of death, (b) to the next heirs at law of the owner or the spouse of any heir at law.

If an owner of record dies without providing a written declaration or a specific devise by will, any unused Rights of Interment descend to the heirs at law of the owner subject to the Rights of Interment of the descendant and his or her surviving spouse.

- Upon the death and burial of one joint tenant, the remaining joint tenant becomes the sole heir. Upon the death and burial of all joint tenants, the rights of ownership pass to the heirs of the last surviving joint tenant.

- When there are multiple owners of Rights of Interment, they may designate one or more persons to represent their interests by filing written notice with the Cemetery. In the absence of such designation or a written notice objection at the time of interment, the Cemetery may permit an interment upon the request or direction of any co-owner without liability.
- The Cemetery is authorized to permit the use of an unused Interment Right by a person entitled to its use if it receives an affidavit by a person having knowledge of the facts setting forth: (1) the fact of the death of the owner and the name of the person or persons entitled to the use of the Right of Interment; or (2) the fact of the death of one joint tenant, proof of the identity of the surviving joint tenants or their successors in interest, and the written direction of the surviving joint tenants or their successors in interest.
- Subject to the Rules and Regulations of the Cemetery and the Laws of the State of Illinois, Interment Rights are freely transferable. Upon the receipt of written instructions or a certified copy of a will containing specific devises from the deceased owner or, should the will contain no such specific devises, then a completed Warranty Deed or Cemetery's then current Transfer Form signed by all individuals with an ownership interest in said Interment Rights and an Affidavit for Interment Rights Use establishing the legal heirs, the Cemetery shall transfer unused Interment Rights as directed on said documentation. However, no transfer of a family burial estate will be accepted by the Cemetery when multiple Interment Rights were required at the time of purchase to erect the upright monument or private mausoleum present on the family Plot.
- A transfer or assignment of any used Right of Interment may only be made to a legal heir of the owner of record or in the instance of an unrelated individual having been permitted to be interred in one or more of the Rights of Interment, those Rights of Interment may be transferred to a relative or relatives of the unrelated individual at the owner's discretion.
- The Cemetery may exchange Interment Rights when desired by Owner, but not for interment rights of lesser value, unless so authorized by the owner. When such an exchange is made, the original conveyance must be surrendered by proper assignment, or by reconveyance, if considered necessary, before any change is affected.
- No transfer or assignment of any Right of Interment, or interest therein shall be valid until accepted in writing by the Cemetery on the Cemetery's forms and recorded in the books of the Cemetery. Transfer of ownership shall take place through execution of a Cemetery Warranty Deed. The Cemetery may also refuse to consent to a transfer or to an assignment as long as there is outstanding any portion of the purchase price or the deposit required to be made to the Cemetery care fund due from the record-owner.
- The Cemetery may fix a charge for recording transfer of ownership of lots, vaults, bronze, niches or crypts, and deposits into the endowed care fund. No transfer of ownership shall be complete or effective until all charges are paid.

other documents establishing Cemetery; and (c) all By-Laws and Rules and Regulations adopted by Cemetery now existing or hereafter for the use, control, management and protection of the Cemetery.

- The Cemetery reserves and shall have the right to correct immediately any error that may be made by its employees or any persons in the burial or entombment of remains or cremated remains in the Cemetery.
- A deceased owner of an Interment shall be interred in the appropriate space represented by the Deed of Interment. If the deceased owner owns more than one Interment, Entombment, or Inurnment Right the ownership thereafter shall be subject to these Rules and Regulations. Cemetery recognizes Interment Rights is a form of property freely transferable at death. Cemetery will recognize the new owner if ownership is specifically bequeathed in the deceased owner's will. If the Interment is not specifically passed by will, the person or persons claiming ownership must provide evidence of ownership appropriate and acceptable to Cemetery before ownership shall be transferred.
- When more than one owner owns an Interment, Entombment or Inurnment Right, Cemetery reserves the right to require the consent of all owners before accepting the transfer of ownership. Provided, however, when more than one owner owns an Interment, Entombment or Inurnment Right, the Cemetery may take direction from any owner.
- The subdivision of Interment Right is not allowed without the consent of Cemetery and no one shall be interred in any Interment space in which the rights have been subdivided, except by written consent of all parties interested in such space and of Cemetery.

Second rights of interment must be purchased in order for additional interment to take place in a grave with only one right of interment originally purchased.
